“... To have a platform to tap global investors by issuing bonds in any currency is the first of its kind in India and India INX as India’s first international exchange ... has yet again been a pioneer in this ... This will make global investors and funds more accessible to Indian and foreign issuers at a fraction of cost that is being incurred today by issuers. India INX has now made it a reality for investors to invest in quality papers from India with a disclosure regime that is at par with the best globally.”

Listing ceremonies in Jan 2022

In a first, IRFC, India's esteemed Miniratna company, listed their USD 500 Mn Green Bonds **exclusively** in GIFT IFSC.

Commenting on the listing, Shri Injeti Srinivas, Chairman IFSCA said "We are delighted to note that IRFC has chosen to list their green bonds of USD 500 million exclusively on the IFSC exchanges. IFSCA aims to develop IFSC as a gateway for mobilizing foreign capital towards green financing and sustainable financing in India. Towards this objective, IFSCA has already specified the regulatory framework for listing of ESG debt securities based on global standards. The exclusive listing by IRFC demonstrates the competitiveness of IFSC in providing international financial services. We would encourage Indian corporates, including other PSUs, to consider listing their foreign currency bonds on the IFSC exchanges."

State Bank of India (SBI) in Jan 2022 issued \$300 Mn Formosa bonds and listed the issuance on India INX GIFT IFSC. This is the first such issuance by any Indian Bank in Formosa Bond market. Formosa bond is a bond issued in Taiwan.

"This first successful issuance of Formosa Bond by any Indian commercial bank, is a testimony of the confidence reposed by the overseas investors into India's growth story and also in SBI, in particular.

"This is a reflection of India's March towards the next step of being a developed country," Khara said at the listing ceremony of the Formosa Bonds on India INX.
